

Using the Product with Windows® 8

1. Installation / Uninstallation

- To install the software, follow the instructions on the screen.
After software installation, connect the computer to the printer with a USB cable or a parallel cable.
Once Plug and Play detects the printer and starts, follow the operating system's on-screen instructions.
- To uninstall the software, launch "Uninstall a program" in "Control Panel".

Notes on Installation

- If a screen prompting you to restart the computer appears after installation, follow the instructions on the screen to restart.
- How to open the "Control Panel" or "Devices and Printers"
 - 1) Click right button of mouse on the "Start screen".
 - 2) Click "All apps", and click "Control Panel" icon.
 - 3) Click "View devices and printers".

2. Launching the software

- Click on an icon on the "Start screen" to launch the "KX-P1131E Control Panel Software".

- "KX-P1131E Control Panel software" is an application designed to run in Desktop mode.
